

CARIBBEAN DREAM®

RELAXER New Retexturizing System

SOFT Wave™

1. Shampoo hair with clarifying shampoo, rinse, towel dry well, apply presoftener, blow dry and flat iron.
2. Application: Use protective gloves.
 - A. Divide hair into 4 sections.
 - B. Starting at the nape, take half-inch thick sections and apply Retexturizing Crème Relaxer Lotion half inch from scalp to ends.
 1. Retexturizing Crème Relaxer Lotion may be applied with coloring bowl and brush.
 - C. Every other half-inch section, comb the creme through to the ends using minimal tension.
 - D. Beginning at the frontal area, set hair using properly sized magnetic rollers and coated bobby pins.
 - E. Preheat dryer and gently place plastic bag over set hair. Place client under dryer.
3. Timing:
 - A. Normal Condition Hair — 15 - 40 minutes
 - B. Color Treated Hair — 5 - 15 minutes
 - C. Highlighted Hair — 3 - 10 minutes
4. Rinse set hair thoroughly with COOL water for 7 minutes.
5. Place client under preheated dryer until hair is 75% dry.
6. Place cotton around hairline and proceed to neutralize with Liquid Neutralizer.
7. Process neutralized hair — 5 - 7 minutes.
8. Remove cotton and rinse set hair.
9. Styling Methods:
 - A. Set rolled hair under dryer.
 - B. Remove rollers, add product, and allow to dry naturally.
 - C. Blow dry hair with vent/airflow brush.
10. Tell your client:
 - A. Do not shampoo or rinse hair for 72 hours.
 - B. Do not color or highlight hair for 2 weeks.

ONDA Suave™

1. Lave el cabello con champú clarificante, enjuague, seque bien con toalla, aplique “presoftener”, secar y planchar.
2. Aplicación: Use guantes protectores.
 - A. Divida el cabello en 4 secciones.
 - B. Comenzando por la nuca, tome secciones de media pulgada y aplique la Crema Retexturizadora Loción Para Alizar el cabello desde la raíz hasta las puntas.
 1. La Crema Retexturizadora Loción para Alizar el cabello puede aplicarse con una brocha.
 - C. Cada otra sección de media pulgada, peine la crema completamente desde la raíz hasta las puntas, aplicando mínima tensión.
 - D. Comenzando en el área frontal, enrrolle el cabello usando los rolos magnéticos del tamaño apropiado y las hebillas con capas protectoras.
 - E. Pre-caliente la secadora y coloque suavemente una bolsa plástica sobre los rolos. Ponga cliente debajo de la secadora.
3. Tiempo:
 - A. Cabello Normal — 15 - 40 Minutos
 - B. Cabello Tratado Químicamente — 5 - 15 Minutos
 - C. Cabello con Rallitos/Reflejos — 3 - 10 Minutos
4. Enjuague el cabello completamente con agua fría por 7 minutos.
5. Situe al cliente debajo de la secadora pre-calentada hasta que el cabello esté 75% seco.
6. Coloque algodón alrededor de los rolos y proceda a neutralizar el cabello con el Neutralizador en líquido.
7. Procese el neutralizador — 5 - 7 Minutos.
8. Remueva el algodón y enjuague el cabello en rolos.
9. Proceda a hacer su estilo favorito.
10. Dígale a su cliente:
 - A. No se lave o enjuague el cabello por 72 horas.
 - B. No se aplique color o rallitos por 2 semanas.
